PROFILE

Full Stack Developer with 4+ years of experience. I build apps used daily by thousands of people in telecom and, as Co-CEO and co-founder of Ardentium, I co-lead the company and take our clients' projects from idea to production: web, desktop and mobile. I work with AI agents across the whole development cycle and remain accountable for the architecture, review and quality of everything we ship.

AI IN SOFTWARE DEVELOPMENT

- **Agent orchestration:** I use Claude and Cursor daily, connected to multiple MCP servers, to implement, debug and test real codebases.
- **Method:** I work in milestones and validate with unit tests and Playwright browser tests before delivery. When a project calls for it, I apply Spec-Driven Development (SDD).
- **Agents and automation:** LLMs, scheduled daily research tasks and WhatsApp Cloud API agents with custom tools.

EXPERIENCE

Co-CEO, co-founder and Full Stack Developer

2026 – **Present**

Ardentium, custom software, apps and AI automation · Asunción

- I co-lead the company and handle everything: sales, scoping, architecture, development, deployment and support.
- I have closed our first clients and take their projects from proposal to production, on web, mobile and desktop.

Full Stack Developer

Feb 2023 – **Present**

Konecta Software Factory · independent consultant on projects for Personal Paraguay

- I build critical web and mobile apps with Angular and Flutter, used daily by thousands of people.
- I build self-service, purchase and payment flows and integrate them with REST services and a new Java backend.
- I diagnose complex issues across frontend, backend and CRM with QA and design, in a team that works with Scrum and Kanban.

Earlier experience

Web Master, Organizing Committee, 2022 South American Games, Asunción (HTML, CSS, JavaScript) — Jan 2022 – Oct 2022
Business Officer, Digital Innovation, Financiera Cefisa — Jan 2021 – Jan 2022
IT Support, Copaco S.A. — Jul 2019 – Jan 2021

TECHNICAL SKILLS

At Konecta: Angular (RxJS, NgRx), Flutter (Provider, Riverpod, Bloc), TypeScript, REST APIs

Methodologies: Scrum, Kanban, Spec-Driven Development (SDD), milestone-based delivery, human review of AI-generated code

STACK AT ARDENTIUM AND PERSONAL PROJECTS

I choose the right tool for each project and build it by directing AI agents.

Web: React, Next.js, TypeScript, Tailwind CSS

Mobile: React Native (Expo), Flutter

Desktop: Tauri (Rust), Electron

Backend: Node.js (NestJS), Python (FastAPI), REST APIs, GraphQL

Data: PostgreSQL, MongoDB, Redis, SQLite, Prisma

Platforms: Supabase, Firebase, Stripe

Infrastructure: Git, Docker, GitHub Actions, AWS, Vercel, Cloudflare

Testing: Playwright, Vitest

AI: Claude, Cursor, OpenAI API, MCP servers, RAG, WhatsApp Cloud API

EDUCATION AND LANGUAGES

Computer Engineering, Universidad Americana — 2019 – 2027 (expected)
Law, Universidad Católica — 2016 – 2020

Languages: Spanish (native), English (advanced), Portuguese (advanced)
